

## The Environment

1. The environment is the natural world.
2. We cannot separate environment from our lives.
3. We live in it.
4. We cannot live without it.
5. We are part of it.
6. We need to take care of the environment and protect it.
7. We can recycle or reuse.
8. We can help in cleaning up the trash and don't litter.
9. We can use the resources only as we need them.
10. We can plant trees.

We can learn more about our natural resources so that we have a better understanding of how to use them and better take care of them.

## Activity 1:

Write the words that describe "Environment" inside the circle.

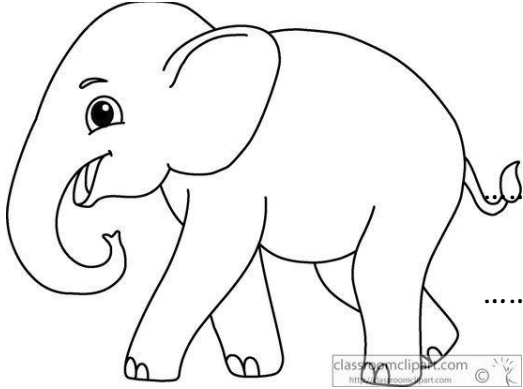

## Activity 2:

1. Among the five precepts what is the most relevant precept to the protection of environment?
2. How can it be used to protect the environment?

Activity 3:

These are some of the critically endangered animals. Find where their habitats are and the main reasons for them being endangered.

1. Asiatic Elephant
